

Freddie H. Fu, Maria Kovacs Honored As Pitt Distinguished Professors

Freddie H. Fu

MARIA JANE BENT/CODE
Maria Kovacs

Pitt Chancellor Mark A. Nordenberg made the appointments, which became effective July 1, based on the recommendation of Pitt Provost and Senior Vice Chancellor James V. Maher.

The University of Pittsburgh has honored two faculty members in the School of Medicine, one as a Distinguished Service Professor and the other as a Distinguished Professor. Freddie H. Fu has been named as Distinguished Service Professor of Orthopaedic Surgery and Maria Kovacs has been named Distinguished Professor of Psychiatry.

Pitt Chancellor Mark A. Nordenberg made the appointments, which became effective July 1, based on the recommendation of Pitt Provost and Senior Vice Chancellor James V. Maher.

The rank of Distinguished Service Professor recognizes distinctive contributions and outstanding service to the University community in support of its multifaceted teaching/research/service mission; the rank of Distinguished Professor recognizes extraordinary, internationally recognized scholarly attainment in an individual discipline or field.

Biographical information on the faculty honorees follows.

Freddie Fu is the David Silver Professor and Chair of Pitt's Department of Orthopaedic Surgery. He holds secondary appointments as a professor of physical therapy in Pitt's School of Health and Rehabilitation Sciences, professor of health and physical activity in the Pitt School of Education, and professor of mechanical engineering in Pitt's Swanson School of Engineering. In addition, he has been the head team physician for Pitt's Department of Athletics for more than 20 years.

Known internationally as a pioneer in

anatomic double-bundle ACL (anterior cruciate ligament) reconstruction surgery, Fu and his research team recently were awarded a \$3.2 million National Institute of Arthritis, Musculoskeletal and Skin Diseases grant to compare anatomic double-bundle and anatomic single-bundle ACL reconstruction surgeries. He is the founding medical director of the UPMC Center for Sports Medicine and has trained more than 500 surgeons and physicians worldwide and approximately 60 surgeons through Pitt's Department of Orthopaedic Surgery Fellowship Program.

In 2008, Fu and his wife, Hilda Pang Fu, made a \$1 million commitment to the OREF/AOSSM/Dr. Freddie H. and Mrs. Hilda Pang Fu Research Award. The award, which was created in cooperation with the Orthopaedic Research and Education Foundation and the American Orthopaedic Society for Sports Medicine, will support research directed by either a female orthopaedic surgeon or an orthopaedic surgeon researcher of either gender on a topic of

interest to female athletes.

Currently serving as president of the International Society of Arthroscopy, Knee Surgery and Orthopaedic Sports Medicine, Fu has held offices in numerous professional and academic organizations, including a recent term as president of AOSSM. His research efforts have led to more than 160 professional awards and honors, nearly 860 national and international presentations, more than 350 peer-reviewed articles, and editorship of 28 major orthopaedic textbooks.

The Hong Kong native received his undergraduate degree from Dartmouth College and his MD from Pitt.

During her 40-year career, Maria Kovacs, a professor of psychiatry in the University of Pittsburgh School of Medicine, has earned a reputation as one of the most highly respected researchers in child and adolescent depression. Kovacs' research on those with depression spans ages ranging from late childhood to adulthood, and she has examined the presentation, outcome, and public health implications of early-onset affective mood disorders.

During the past decade, Kovacs has led a multidisciplinary international team of investigators in a project on risk factors for juvenile-onset depression that combined molecular genetic, brain physiology, behavioral observation, and clinical perspectives. She also has developed a novel psychotherapy for depression based on principles of emotion regulation that is being tested with children.

Kovacs is a member of numerous professional organizations, including the American Association for the Advancement of Science, the American Psychological Association, and the American Psychological Society, which elected her as a Fellow in 1998.

In 2003, the Institute for Scientific Information recognized Kovacs as one of the most-cited researchers (in the top 1.5 percent) in psychology and psychiatry for the 19-year period spanning 1981 to 1999. She has served on the advisory committees for both DSM-III and DSM-IV—the third and fourth editions of the Diagnostic and Statistical Manual of Mental Disorders, which provides the standard criteria for the classification of mental disorders for the American Psychiatric Association.

Kovacs earned her BA in psychology from Queens College of the City University of New York, her MEd in psychology from Columbia University Teachers College, and her PhD in psychology from the University of Pennsylvania School of Medicine's Department of Psychology.

The rank of Distinguished Service Professor recognizes distinctive contributions and outstanding service to the University community in support of its multifaceted teaching/research/service mission; the rank of Distinguished Professor recognizes extraordinary, internationally recognized scholarly attainment in an individual discipline or field.

Frances Hesselbein

Pitt's Hesselbein Global Academy Attracts Students, Business and Government Leaders Worldwide

By Patricia Lomando White

What does it take to be an engaged, informed, innovative leader? College students from around the world are getting more than a glimpse of the requirements at the second annual Student Leadership Summit of the University of Pittsburgh Hesselbein Global Academy for Student Leadership and Civic Engagement, which runs until July 13 on the University's Pittsburgh campus.

The by-invitation-only summit—comprising a series of daily workshops—began July 10 and will conclude tomorrow in the William Pitt Union. A highlight of the summit was the July 12 Hesselbein Lecture featuring Marshall Goldsmith, world-renowned leadership expert and the author of the *New York Times* best seller *What Got You Here Won't Get You There* (Hyperion, 2007).

Launched in 2009, the Hesselbein Global Academy is named in honor of Pitt alumnus Frances Hesselbein, recipient of the 1998 Presidential Medal of Freedom and chair of the board of governors of the Leader to Leader Institute (formerly the Peter F. Drucker Foundation for Nonprofit Management). The academy's mission is to inspire, develop, and reward accomplished student leaders as they meet the challenges of tomorrow.

"We are absolutely thrilled to be hosting the second annual Hesselbein Summit," said Pitt Vice Provost and Dean of Students Kathy W. Humphrey. "We anticipate that this year's summit will be fantastic, with greater representation from students attending colleges and universities in other countries and another incredible pool of mentors. Our special guest Marshall Goldsmith is truly one of the top experts in the world in the field of leadership, along with Frances, so it's exciting to conduct this wonderful event on our campus once again."

Hunter Group Health Policy and Management Student Scholarship

Supporting Future Health Care Leaders

By Lori Spisak

David P. Hunter (GSPH '70) has always understood the value of scholarships. When he was a student at the University of Pittsburgh Graduate School of Public Health (GSPH), he benefited from a University scholarship that helped him pay for his tuition and books. Now, after years as a successful hospital executive and health care consultant, he watches as his own philanthropy—and the philanthropy of those closest to him—impacts future health care leaders at GSPH.

Both of Hunter's parents worked as nurses; his father was also a hospital administrator. "Growing up, I spent a lot of time in hospitals with them," he remembers. After Hunter completed his undergraduate degree at Ursinus College in Collegeville, Pa., his father encouraged him to continue his education.

"I was fortunate enough to be offered a position in what was then GSPH's hospital executive track,"

Hunter says. One reason he selected Pitt for graduate work was the financial assistance that the University offered.

Hunter went on to hold executive-level positions at several organizations—ranging from a rural hospital in Rochester, N.Y., to VHA, a national nonprofit hospital network—before cofounding The Hunter Group, a nationally recognized health care con-

sulting and management company. In 2005, Hunter and his wife, Mary Roberts Hunter, endowed a scholarship at GSPH. "The quality of educational programs and students at Pitt is absolutely remarkable," he explains. "We are so impressed with the academic achievement and research at the University."

This year, the Hunter Group Health Policy and Management Student Scholarship was awarded to Keili Mistovich, a second-year student in GSPH's Department of Health Policy and Management. A Springfield, Ohio, native, Mistovich came to Pitt to attend the School of Medicine. While in med school, she became interested in how policy-making shapes the practice of medicine. "I believe that understanding the greater picture of medicine is critical to providing the best care to my patients," she explains.

Mistovich says she feels honored to be a scholarship recipient, adding that it's "encouraging to know that others believe in me as I pursue my professional goals." Mistovich says she is impressed by Hunter's professional achievements.

"He's a very accomplished individual. And I think it's great that he believes in giving back to the community that helped him to reach his own goals."

But it is more than the Hunters' generosity that makes the scholarship grow. David Hunter encourages his colleagues—both past and present—along with family and friends to make donations to the fund that bears his name. "Rather than give me gifts

"I was fortunate enough to be offered a position in what was then GSPH's hospital executive track," Hunter says. One reason he selected Pitt for graduate work was the financial assistance that the University offered.

David P. Hunter

for my birthday or other holidays, I would prefer that people build on the scholarship and make it as big as we can!" Thanks to the kindness of the Hunter family and

friends, other promising GSPH students—like Mistovich—will be able to make an impact on public health as well.

Pitt's Hesselbein Global Academy Attracts Students, Business and Government Leaders Worldwide

Continued from page 1

land, Kosovo, Mexico, Morocco, Nigeria, Pakistan, the Philippines, and The Netherlands—are participating in this year's Hesselbein summit. Five of the 50 students attend Pitt: Peter Adams, a junior neuroscience/premed major from Newton Square, Pa.; Lesley Adewunmi, a senior political science and philosophy major with a minor in Africana Studies from Ballston Lake, N.Y.; Jamil Alhassan, a junior biology major from Philadelphia, Pa.; Elaine Lewis, a junior history and political science major from Pittsburgh, Pa.; and Patrick Moon-Rhodes, a sophomore mechanical engineering technology major from Johnstown, Pa. Moon-Rhodes attends Pitt's Johnstown campus, Hesselbein's alma mater.

Learning from accomplished business and government professionals, the students had the opportunity to develop and polish their leadership skills in a series of workshops and civic engagement experiences.

The workshops, held throughout the summit, included presentations titled "Considerations of Multicultural Leadership," "Creating the Culture of the Organization," "Peter Drucker's Five Most Important Questions," "Philanthropy and Civic Engagement," and "Considerations of Multicultural Leadership from a Global Context."

Today, under the direction of their men-

tors, students will apply what they learn to solve a specific organizational problem at such participating organizations as Sustainable Pittsburgh, Leadership Pittsburgh, Ladies Hospital Aid Society, Collegiate YMCA, the World Affairs Council of Pittsburgh, PNC Bank, Conservation Consultants, Inc., and United Cerebral Palsy Pittsburgh.

This year's professional mentors are: Bernard B. Banks, Colonel, deputy department head of Behavioral Sciences and Leadership at the United States Military Academy in West Point, N.Y.; Eva Tansky Blum (A&S '70, LAW '73), a Pitt trustee, senior vice president and director of community affairs at PNC Bank, and chair of the PNC Foundation in Pittsburgh, Pa.; Cathey Brown, founder and chief executive officer of Rainbow Days, Inc., in Dallas, Texas; Tara A. Cortes, executive director of Hartford Institute for Geriatrics and professor in geriatric nursing at the New York University College of Nursing in New York, N.Y.; Randal D. Fullhart, Major General, director of Global Reach Programs for the U.S. Air Force in Arlington, Va.; Carla Grantham, retired Lieutenant Commander in the U.S. Coast Guard and Congressional liaison for diversity recruiting and talent management in Washington, D.C.; Toshiko Inoue, finan-

cial advisor at AXA Equitable in New York, N.Y.; Charles J. O'Connor III, retired Colonel in the U.S. Air Force and former senior vice president of Fidelity Investments in Worcester, Mass.; Keith Schaefer (A&S '71), a Pitt trustee and president and chief executive officer of BPL Global, Ltd., in Cranberry Township, Pa.; and Tamara Woodbury, chief executive officer of the Girl Scouts—Arizona Cactus-Pine Council in Phoenix.

Goldsmith, the keynote speaker, was recognized as one of the 15 most influential business thinkers in the world in the biannual study conducted by *The (London) Times* and *Forbes* magazine. The American Management Association named Goldsmith one of the 50 great thinkers and leaders who have influenced the field of management over the past 80 years. Scheduled to be translated into 14 languages, his latest book, *Mojo: How to Get It, How to Keep It, How to Get It Back if You Lose It* (Hyperion, 2010), is a *New York Times* and *Wall Street Journal* top 10 best seller and has been named by *Shanghai Daily* as the No. 1 business book in China.

Goldsmith earned his PhD from the University of California, Los Angeles. A fellow of the National Academy of Human Resources, Goldsmith teaches executive education at Dartmouth College's Tuck School of Business.

Pitt CGS Offers New Certificate In National Preparedness And Homeland Security

By Sharon S. Blake

In the wake of terrorist attacks, hurricanes, oil spills, crippling snowstorms, and pandemic scares, the University of Pittsburgh is offering a new certificate program designed to teach students and professionals core concepts and procedures central to preparedness, homeland security, and emergency management.

The Certificate in National Preparedness and Homeland Security (NPHS) is a one-of-a-kind 18-credit program that features dynamic modeling tools developed in Pitt's Center for National Preparedness—a multidisciplinary collaboration of Pitt scientists, engineers, and policy experts with backgrounds in biomedical research, public health, medicine, national security, and information technology.

The course content, which will cover fundamentals, also will be continuously adapted to a changing preparedness environment, embracing new scenarios and knowledge derived from the most recent crisis-response efforts.

The certificate is being offered beginning with the fall term through Pitt's College of General Studies (CGS), the region's leading provider of adult education programs, and is expected to attract emergency medical technicians, paramedics, government employees, and business people who work in risk management, among others. The U.S. Bureau of Labor Statistics predicts a 12.3 percent spike in demand for emergency management specialists between 2010 and 2016.

"Consistent with our mission, this certificate program responds to an emerging need in the regional workforce and is aimed at non-traditional students and professionals, as well as currently enrolled students," says Kelly Otter, CGS associate dean.

The program's courses cover international, federal, state, and local frameworks for response; a capstone course requires students to plan, simulate, and report on a complete disaster scenario in which all critical infrastructures (e.g., energy, government, transportation, health, and telecommunications) are compromised.

"The program is unique in that it is evidence-based and analytical," says Ken Sochats, codirector of Pitt's Center for National Preparedness. "It incorporates a multiple response systems approach and exciting visual tools."

The program's courses cover international, federal, state, and local frameworks for response; a capstone course requires students to plan, simulate, and report on a complete disaster scenario in which all critical infrastructures (e.g., energy, government, transportation, health, and telecommunications) are compromised.

Applicants must have completed at least 60 college credits, from Pitt or other institutions. For more information, admission guidelines, and an application, visit <http://www.cnp.pitt.edu/certificate>.

Happenings

Design Competition: New Cottages at Fallingwater Carnegie Museum of Art through August 22

Concerts

Cuidado, tango band, 2 p.m. **July 25**, Quiet Reading Room, First Floor, Carnegie Library of Pittsburgh, 4400 Forbes Ave., Oakland, World Kaleidoscope Series, 412-622-3114, www.carnegieli-brary.org.

Exhibitions

707 Penn Gallery, *Slush Puppies*, through **July 25**, 707 Penn Ave., Downtown, www.pgharts.org.

Space, *Congo Women*, through **July 25**, photography exhibition depicting gender-based violence against women of the Congo in West Africa, 812 Liberty Ave., Downtown, 412-325-7723, www.pgharts.org.

The Mattress Factory, *David Beattie: Old Light, New Darkness; Nothing Is Impossible*, both through **Aug. 8**, 500 Sampsonia Way, North Side, 412-231-3169, www.mattress.org.

Frick Art and Historical Center, *Small But Sublime: Intimate 19th-Century American Landscapes*, through **Sept. 5**, 7227 Reynolds St., Point Breeze, 412-371-0606, www.frickart.org.

Andy Warhol Museum, *Rufino: Blots & Figments*, through **July 18**; *Twisted Pair: Marcel Duchamp/Andy Warhol*, through **Sept 6**; 117 Sandusky St., North Side, 412-237-8300, www.warhol.org.

Carnegie Museum of Art, *Design Competition: New Cottages at Fallingwater*, through **Aug. 22**; *Past Meets Present: Decorative Arts and Design*, ongoing; *Caricature, Satire, and Comedy of Manners: Works on Paper From the 18th Through 20th Centuries*, ongoing; 4400 Forbes Ave., Oakland, 412-622-3131, www.cmoa.org.

Senator John Heinz History Center, *Ben Franklin: In Search of a Better World*, ongoing; 1212 Smallman St., Strip District, 412-454-6000, www.heinzhistorycenter.org.

Lectures/Seminars/Readings

Juliette Jones, education specialist of Sustainable Programs at Phipps Conservatory and Botanical Gardens, a discussion about water conservation, 3 p.m. **July 17**, 4400 Forbes Ave., Oakland, Mind Your Water: Lecture Series About Water Conservation, Carnegie Library of Pittsburgh, 412-622-3114, www.carnegieli-brary.org.

Davka, poet, 2 p.m. **July 18**, Quiet Reading Room, First Floor, Carnegie Library of Pittsburgh, 4400 Forbes Ave., Oakland, Sunday Poetry and Reading Series, 412-622-3114, www.carnegieli-brary.org.

Miscellaneous

Carnegie Knits & Reads, knitting sessions at the library, 4:40 p.m. **July 21**, Large Print Room, Carnegie Library of Pittsburgh, 4400 Forbes Ave., Oakland, 412-622-3114, www.carnegieli-brary.org.

Opera/Theater/Dance

The Producers, musical based on Mel Brooks' Academy Award-winning film, through **July 18**, Benedum Center, 719 Liberty Ave., Downtown, Pittsburgh CLO, 412-456-6666, www.pgharts.org, PITT ARTS Cheap Seats, 412-624-4498, www.pittarts.pitt.edu.

Hairspray, Broadway hit musical, **July 20-Aug. 1**, Benedum Center, 719 Liberty Ave., Downtown, Pittsburgh CLO, 412-456-6666, www.pgharts.org, PITT ARTS Cheap Seats, 412-624-4498, www.pittarts.pitt.edu.

'S Wonderful: The New Gershwin Musical, celebration of music and lyrics of George and Ira Gershwin, through **Sept. 5**, Theater Square Cabaret, 655 Penn Ave., Downtown, Pittsburgh CLO Cabaret, 412-456-6666, www.pgharts.org, PITT ARTS Cheap Seats, 412-624-4498, www.pittarts.pitt.edu.

Pitt/PhD Dissertation Defenses

Elizabeth Hile, School of Health and Rehabilitation Sciences, "Measuring Perceived Change in Mobility and Balance in Older Adults: A Mixed-Methods Approach," 1 p.m. **July 13**, 4060 Forbes Tower.

Yoon-Myung Kim, School of Education's Department of Health and Physical Activity, "Role of Regular Exercise in the Treatment of Abdominal Obesity in Adolescent Boys," 9 a.m. **July 14**, Conference Room, Petersen Events Center.

Bryan N. Brown, Swanson School of

Engineering's Department of Bioengineering, "Constructive Remodeling of Biologic Scaffolds: A Phenomenon Associated With Scaffold Characteristics and Distinctive Macrophage Phenotypes," 1 p.m. **July 14**, Fourth-Floor Conference Room, Bridgeside Point II Building.

Vijay K. Venkatraman, Swanson School of Engineering's Department of Bioengineering, "MRI Measures of Brain Integrity and Their Relation to Processing Speed in the Elderly," 9 a.m. **July 19**, Room 244, Sterling Plaza.

Carl Johnson, Swanson School of Engineering's Department of Bioengineering, "Preclinical Biocompatibility Assessment of Pediatric Ventricular Assist Devices," 2 p.m. **July 19**, Second-Floor Conference Room, Suite 237, McGowan Institute for Regenerative Medicine Building, South Side.

Yeol Yong Sung, School of Arts and Sciences' Department of Economics, "Three Essays on Information Transmission in Asymmetric Information Games," 3 p.m. **July 19**, 4716 Posvar Hall.

Peera Pacharintanakul, School of Information Sciences' Telecommunications and Networking Program, "Crosslayer Survivability in Overlay-IP-WDM Networks," 10 a.m. **July 20**, 522 Information Sciences Building.

Laura McClure, School of Health and Rehabilitation Sciences, "Implementation of Clinical Practice Guidelines Following Acute Spinal Cord Injury," 3 p.m. **July 20**, 5047 Forbes Tower.

Maha Mohammad, School of Health and Rehabilitation Sciences, "The Gaze Stabilization Test: Reliability, Performance Characteristics of Normal Subjects, Performance of Patients With Mild Traumatic Brain Injury," 8:30 a.m. **July 21**, 4060 Forbes Tower.

Brett L. Allen, School of Arts and Sciences' Department of Chemistry, "Novel Carbon Nanomaterials: Synthesis and Applications," 1 p.m. **July 21**, 307 Eberly Hall.

Allyson Tessin, School of Arts and Sciences' Departments of Geology and Planetary Science and Environmental Studies, "A Recent Pollution History of the Mygdonian Basin in Northern Greece," 2 p.m. **July 21**, 214 Space Research Coordination Center.

Matthew B. Fisher, Swanson School of Engineering's Department of Bioengineering, 3 p.m. **July 21**, "Functional Tissue Engineering of the Healing Anterior Cruciate Ligament: A Combined Experimental and Computational Approach," Second-Floor Conference Room, Center for Bioengineering, Hazelwood.

Amlan Kumar Basak, School of Arts and Sciences' Department of Physics and Astronomy, "Ultrafast Carrier and Lattice Dynamics Studies in GaAs with Intense Optical Excitation," 10 a.m. **July 22**, 319 Allen Hall.

Pianist to Perform Free Concert at Pitt July 16

Pianist Steven Mayer, credited with "piano playing at its most awesome" by The New York Times, will perform a free public concert at 8 p.m. **July 16**, in the auditorium of Pitt's Bellefield Hall. The concert is being presented by the Pittsburgh Symphony Orchestra (PSO).

Having long been associated with the music of legendary jazz pianist Art Tatum, Mayer will perform selections by Tatum and other exemplars of the Black Virtuoso Tradition—a term used to describe the American solo piano repertoire inspired by African American song and dance.

The Mayer concert is being presented during a three-week teacher-training institute that opens today on the Pitt campus and continues through **July 30**. Sponsored by the PSO, with support from Pitt's Center for American Music, the institute—titled "Dvořák in America"—will bring together 25 teachers from around the United States to study the life and works of Dvořák, the great Czech composer who, after coming to America in 1892, wrote music that helped Americans define and understand themselves.

For more information on the "Dvořák in America" institute, call 412-392-8991 or visit www.pittsburghsymphony.org.

AN EVENING WITH CAVE CANEM

MIKE DRAZDINSKI/CUDGE

Sapphire (left) and Pitt English professor Toi Derricotte, both award-winning poets and authors, were among the guests at a June 24 private reception on the North Side prior to a free public reading by Cave Canem poets. The public reading was held beneath a tent on Monterey Street and presenters included Cave Canem faculty members as well as Sapphire, author of the best-selling novel *Push*, which was made into the Academy Award-winning movie *Precious*. The event was hosted by the City of Asylum/Pittsburgh, an organization that provides refuge to exiled foreign writers. Cave Canem, a nationwide fellowship that cultivates the artistic and professional growth of African American poets, was established in 1996 by Derricotte and poet Cornelius Eady.

JAZZIN' IT

JIM BURKE/CUDGE

Three Pitt jazz students—the first to be seeking degrees in Pitt's new PhD curriculum in jazz studies—made presentations April 26 in their Advanced Jazz Composition course in Pitt's William R. Robinson Recording Studio in Bellefield Hall. Seated is Nathan Davis, Pitt's director of Jazz Studies, and students (from left) James Moore, Alton Merrell, and Nathan Frink. Each student presented a fully completed score of an extended concert jazz work, a jazz ballet, a jazz musical theater piece or a mini opera, and a score for a film chosen by the composer. Davis developed the new jazz PhD program, which combines musicology, ethnomusicology, composition, and performance.

A SPECIAL HANDSHAKE

British Prince Harry (left) shakes hands with U.S. Marine Corporal Joshua Maloney (right), while W.P. Andrew Lee looks on. Lee, a professor of surgery and orthopedic surgery as well as chief of the Division of Plastic Surgery in the University of Pittsburgh School of Medicine, performed the 2009 transplant that gave Maloney a new right hand. Maloney's own hand had been destroyed during a 2007 military training exercise. The three men met in New York City during a June 25 reception that Prince Harry hosted on the aircraft carrier *USS Intrepid* to honor British and American veterans. The prince, who is training to become a pilot with the British Army Air Corps, is interested in Pitt and UPMC's hand-transplantation program. He spoke with Lee and Maloney about the medical procedure and its potential to help other wounded warriors.

PUBLICATION NOTICE The next edition of the *Pitt Chronicle* will be published July 26. Items for publication in the newspaper's *Happenings* calendar (see page 3) should be received at least two weeks before the event date. *Happenings* items should include the following information: title of the event, name and title of speaker(s), date, time, location, sponsor(s), and a phone number and Web site for additional information. Items may be e-mailed to chron@pitt.edu, faxed to 412-624-4895, or sent by campus mail to 422 Craig Hall. For more information, call 412-624-1033 or e-mail robinet@pitt.edu.
